Dearest Commander Of Greatness To The Needs To Terminate A "Provable" Hate Conspiracy : Fools Said I : Babe,

San Bernardino is my hometown. When past times in small talk of where i am from, the mention of "San Bernardino" would engage a conversation response from most people as:

"Where is that?".

I of course, found it amazing that as County of San Bernardino is the largest in our nation, larger than the state of Rhode Island. This place I called home being so large

But you are so full of your all high mighty prejudice that you have derailed
at the start. For me, I have no community presence and I have no community
have already made that determination of prejudice by my digital footprint I
walked in to this home. I am being drawn to tears as I write. I am proud of

I am not proud of the outcomes that a nation divided has backlashes upon me as a man that
is on a mission of peace. That mission is true, the messages sound and sane.

I am not proud to be a native born resident of San Bernardino that has a mass shooting in its
history and that the community will not step up to be a united force of unity in community
and stop this onslaught of hate that is being received in my life that puts me here in forced
persecution factors as a refugee from hate. The source of this hate as been identified and that
I cannot seem to find a person of moral agency to defend me instead of them; even though it
is them that is acting unprofessional; acting immoral; acting illegally; and acting insane.

I am not proud to be an American under these conditions that everyone around sees the truth
by their way of acting unprofessional toward me, and still continues to hold their belief that
this invisible secret that causes this unprofessional response is acceptable to hold against a
person, like me.

What did I do you all?

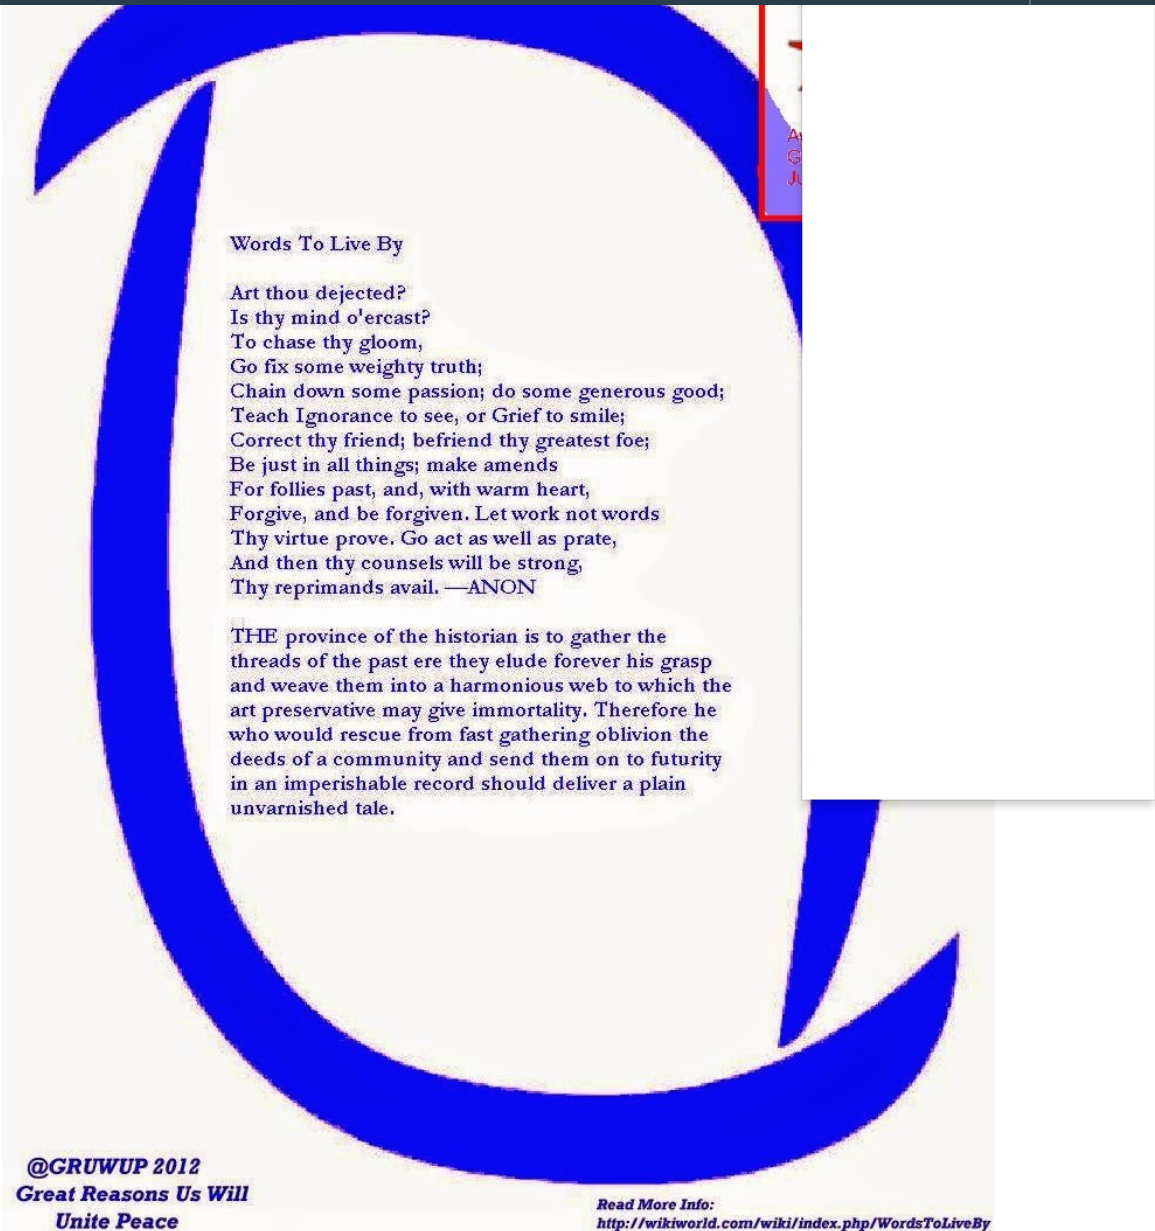

Absolutely nothing; but to follow these words to the letter and place a plain unvarnished tale
before the world that I have faith the world outside of this circle of hate that encapsulates me

----- All of us are quite aware of, and deeply worried by, the disturbing social and political situation of the world is increasingly a place of violent conflict, hatred and brutal atrocities, committed even in the name of religion. We know that no religion is immune from forms of individual delusion or ideological extremism. We must be especially attentive to every type of fundamentalism, whether religious or of any other kind. A duty is required to combat violence perpetrated in the name of a religion, an ideology or an economic system, while safeguarding religious freedom, intellectual freedom and individual freedoms. But there is another temptation especially guard against: the simplistic reductionism which sees only good or evil; or, if you will, the right and the wrong. The contemporary world, with its open wounds which affect so many of our brothers and sisters, demands every form of polarization which would divide it into these two camps. We know that in the attempt to be faithful without, we can be tempted to feed the enemy within. To imitate the hatred and violence of tyrants and monarchs is not the way to take their place. That is something which you, as a people, reject. Our response must instead be one of healing, of peace and justice. We are asked to summon the courage and the intelligence to resolve today's geopolitical and economic crises. Even in the developed world, the effects of unjust structures and actions are apparent. Our efforts must aim at restoring hope, righting wrongs, maintaining commitments, and thus promoting the well-being of individuals and of peoples. We must move forward together, as one, in a renewed spirit of fraternal cooperation generously for the common good. The challenges facing us today call for a renewal of that spirit which has accomplished so much good throughout the history of the United States. The complexity, the urgency of these challenges demand that we pool our resources and talents, and resolve to support one another with respect for our differences and our convictions of conscience. **Pope Francis : US Congress**

What I did for the city library back then when I was 18, was to imagine something that never existed before and manifest that something with the tools of creation of what was then a microcomputer and a modem at my reach only because of Ben Franklin's idea --- The Library System.

If you want to stand out as being an asshole, you surely did that by the attitude against me when you came to visit this home.

I explained the mechanics of the mental illness prejudice meme and where common decency in communications to David Allen Driskill, who is part of the family he lived in this home as well.

He grew up here.

His half sister too, Mysti Dawn Driskill, who part of her childhood, she lived in this home.

She grew up here.

Actually, something to mention, is the BBS that I programmed for the San Bernardino City Library system was one of two BBSes that I originally coded from scratch as there was no such thing as commercial software for such an application of technology of a "BBS : Electronic dial up Bulletin Board System"

Mysti was my reliable agent of telecommunications to trust.

Take us back to San Bernardino December 2015

You being awarded hero,

We could be, in this family, given a funeral for one of the family members
under the roof of this home.

For Mysti, she did not attend the Christmas party that day. Perhaps destiny. For her choice
was perhaps to be now included in this story.... for she might have been one of the victims.
She remains alive.

But you might as well kill me -- for I have been screaming into the deaf ears of community
for years. They are not listening.

You seem to have your own story of life or death outcomes that you went missing in the
wilderness and were found. Might that be also for the destiny to read this letter.

But you might as well call me dead. You took this letter and have already thrown it away.

But it will be filed here for the public, someone of destiny to find and save it out of the
disgrace of prejudiced --- for it is not #AllLivesMatter,

That is not the equation that is the priority of this nation. This is a provable fact.

They will not give up their hate. They will not relate to a man of peace. The error in their ways.

For #AllLivesMatter can't take hold.

For "Real Up Human" can't be part of the mold, In writing of this this letter so old.

I hold my open arms wide --- for them to get their head out of there asses w of light and understanding does not shine.

They all act as though this is acceptable, politically embolden and protected untouchable, and I label it not!

The destiny of human kind to find this after I succumb to the hate that is in memes and memplexes that are patterned recognizable

The memetic science of this --- tell no lies

My hometown of San Bernardino, where I grow up, does not take a serious attempt to find the role of "peace agent" i because I have bipolar disorder, hiv/aids, am an gay male homosexual who happens to hold a digital footprint of a label known as "The Dirty". The social services of Ryan White Care Act violate privacy of their clients among other offenses. This hate conspiracy is collaborated by negative outlook Glassdoor employee tier reviews of these federally funded agencies. As clients we have no voice. The leadership of these agencies have used #GangStalking tactics against me to remove my presence in their local community condoning and endorsing the hate memplex within greater community.

#HateAllowedToWin in a huge big secret that is known by the upper rungs of this ladder of engineering that was designed without memetics in frame present of mine.

How the greater social trust would become infected outside of this microsum of hate to the lives of those they deemed to have called "The Dirty" into all of our society.
